

# European IBA database crop protection products in blackcurrant

Piotr Baryła  
IBA  
Mirosław Korzeniowski  
Bayer Poland

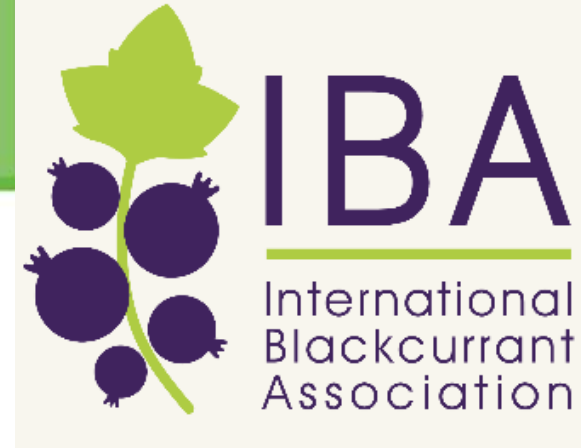

**5TH INTERNATIONAL BLACKCURRANT CONFERENCE**

Tues 14th - Thurs 16th June 2016

# Are currants still attractive in EU?

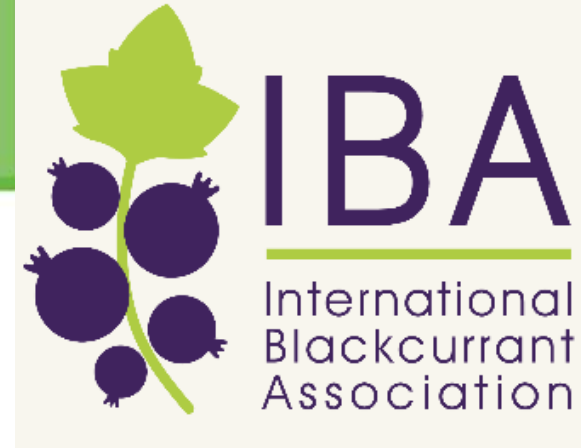

**Yes!!!**

Good example is Fruit Logistica logo 2016

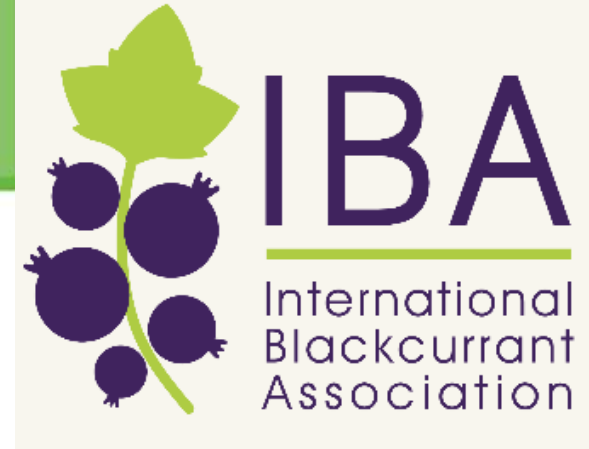

# Key regulatory challenges in the EU

- › Criteria identifying endocrine disrupting chemicals
- › Renewal of active substances (80% a.i. in EU eg. glyphosate)
- › Draft Bee Guidance Document (Q3-4 2016)
- › Comparative assessment / Candidates for substitution (77 a.i. list form EU, process on country level)

# Other challenges in the EU

- › MRLs on the other markets (USA, Australia, Japan)
- › Organic production- limited number of registered products
- › New pest: *Drosophila suzukii*
- › Harmonisation of registered products in European countries

# List of registered crop protection products in European countries

[Biznes Horti 2016\Konferencje 2016 z udziałem BCS\06.14 14.2015 IBA Kent\Plant Protection Products IBA 2016.xls](#)

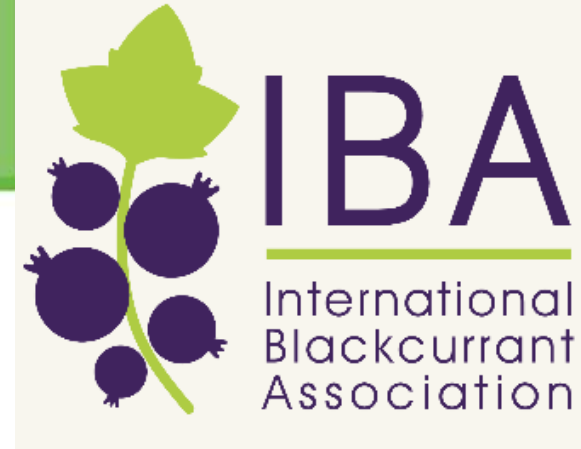

Blackcurrant plant protection products in EU	Plant protection products 2016 (update march 2016)	In the future?
Fungicides	27	17
Insecticides	30	22
Herbicides	21	14

Blackcurrant plant protection products in countries	DK	F	D	FIN	LT	NL	NZ	N	PL	GB	UA
<i>Fungicides</i>	8 (5)	11 (7)		4 (2)		9 (7)	5 (3)	6 (5)	11 (7)	11 (8)	2 (0)
<i>Insecticides</i>	7 (4)	6 (3)		9 (4)		3 (1)	3 (2)	4 (1)	10 (6)	10 (6)	4 (2)
<i>Herbicides</i>	7 (6)	6 (4)		4 (3)		3 (1)	2 (1)	7 (6)	4 (2)	11 (7)	no registrated products

# Next steps, what can be done?

## Alert EU decision makers:

- › European Commission (Health and Food Safety Commissioner V. Andriukaitis)
- › Members of European Parliament (Agriculture and Environment Committees)
- › National authorities (Standing Committee on Plants, Animals, Food and Feed).

**cooperation  
is our future!**
