

Dirk Herdieckerhoff, German Blackcurrant Growers

Market situation, June 2014

French currants on the german market.

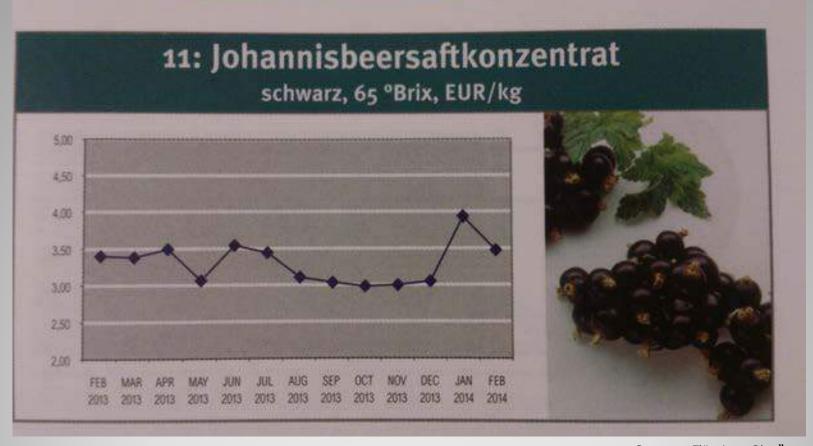

What are the currants worth in this bottle ?

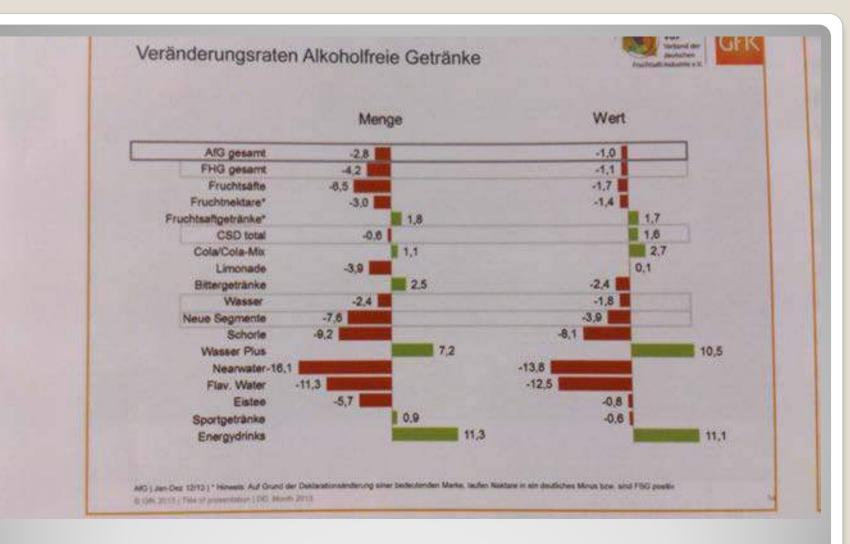

Here the customer has to search for currant juice

This is 1 Liter currant Nektar containing 25% fruit. It sells for 1 €

5,3 kg currants make 1 kg concentrate, the ^{Source: "Flüssiges Obst"} actual price is close to 2€ Processors dont earn.

Fruit juice consumtion is getting less.

Growers and processors dont earn in the moment. Lower prices are no solution.

What we need is :

-better marketing -new products -new markets

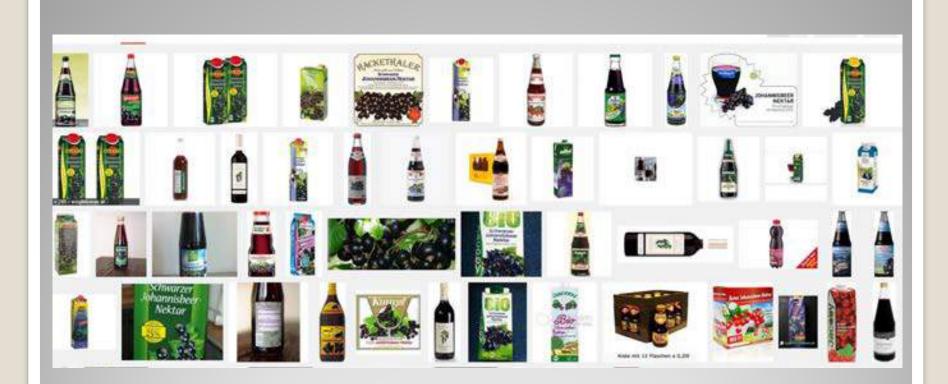

Make Your own productsand sell them locally ?

• Not easy , but possible.

 Millions of people dont know the black currant. It tastes good and is healthy.

 Whatever the future will bring, success is more likely when we work together.

Thank You
